## EDUCATION

**St. Joseph's Degree College**

Bachelor of Science

( 2017-2020 )

## ABOUT

I am a dynamic Frontend Developer with 1 year of experience at MetricStream. Proficient in HTML, CSS, JavaScript, and React JS, I excel in creating scalable web apps. A quick learner, I'm dedicated to delivering quality results and staying current with industry trends.

## SKILLS

- HTML/ CSS
- Bootstrap
- Javascript
- Typescript
- Node JS
- React JS
- Material UI
- Github
- Jira Tool

## WORK EXPERIENCE

### Intern

NxtWave ( Nov 2021 – Apr 2022 )

- Acquired web development basics using HTML, CSS, and Bootstrap during internship project.
- Evolved from JavaScript to React JS and Hooks for versatile app development, encompassing authentication and local storage.

### Junior Software Engineer

MetricStream ( Sep 2022 – Nov 2023 )

- Employed React JS and React Hook Forms for smooth feature integration in GRC product as a Frontend Developer.
- Integrated new features, upheld existing functionalities, and worked with UI team to transform Figma designs into functional web pages for optimal performance.
